I. DISPOSICIONES GENERALES

MINISTERIO DE HACIENDA

26357 *Orden HAC/1501/2025, de 17 de diciembre, por la que se aprueban los precios medios de venta aplicables en la gestión del Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados, Impuesto sobre Sucesiones y Donaciones e Impuesto Especial sobre Determinados Medios de Transporte.*

El artículo 57 de la Ley 58/2003, de 17 de diciembre, General Tributaria, establece como uno de los medios para la comprobación de valores el de precios medios en el mercado, que se ha considerado como idóneo para la comprobación de valores de los medios privados de transporte, aprobándose para cada ejercicio una orden ministerial en la que se han recogido los precios en el mercado tanto de vehículos automóviles, como autocaravanas, motocicletas, embarcaciones de recreo, motos náuticas, motos eléctricas y *quads*.

En aplicación de lo anterior, la Orden de 30 de enero de 1987 aprobó los precios medios de venta utilizables como medio de comprobación, tanto en el Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados como en el entonces Impuesto General sobre las Sucesiones. Dichos precios medios de venta han venido siendo actualizados en los últimos años por sucesivas órdenes de este Ministerio. La última actualización realizada se ha llevado a efecto por el Ministerio de Hacienda, Orden HAC/1484/2024, de 26 diciembre, en la que se establecía, como se hace en esta orden, que los precios medios de venta pudieran utilizarse como medios de comprobación del Impuesto Especial sobre Determinados Medios de Transporte.

En el mismo sentido, la Orden de 4 de julio de 2001, por la que se aprueba el modelo de declaración-liquidación que debe utilizarse en las transmisiones de determinados medios de transportes usados sujetas al Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados, establece que para la práctica de la liquidación se podrán tomar en cuenta los precios medios de venta establecidos anualmente en orden ministerial.

Para la elaboración de las tablas de modelos y precios se han utilizado las aportaciones realizadas por las asociaciones de fabricantes y vendedores de medios de transporte.

Este año, en el anexo I de la orden, en la columna relativa al modo de propulsión de los vehículos, se han identificado de forma separada los modelos híbridos enchufables (PHEV: «*Plug-in Hybrid*») por las diferentes ventajas aplicables a este tipo de vehículos.

Esta orden actualiza la valoración base de motores marinos por unidad de potencia mecánica real contenida en su anexo III, y mantiene la tabla de porcentajes de depreciación contenida en el anexo IV de la Orden de 15 de diciembre de 1998 y en las órdenes sucesivas para la oportuna adecuación de los valores reflejados a la realidad del mercado del automóvil y a la depreciación que sufren los vehículos.

Asimismo, motivado por el auge de las energías renovables se introducen los motores eléctricos marinos dentro del anexo III. Estos motores seguirán la misma depreciación que el resto de motores marinos.

Con respecto a las motos náuticas, para una mayor simplificación en su valoración, ésta se calcula teniendo en cuenta su potencia (kw). En este caso, la depreciación aplicable es la utilizada para las embarcaciones a motor.

Por otro lado, se han modificado los porcentajes de valoración de uso de las embarcaciones y motores marinos, así como su valor residual, para adaptarlos a la realidad del mercado.

cve: BOE-A-2025-26357
Verificable en https://www.boe.es

Como en años anteriores, se mantiene también como dato informativo e identificativo de los modelos, de acuerdo con la costumbre, la potencia de los motores en caballos de vapor (cv), por ser un dato de carácter comercial y general que sirve para identificar algunos de los modelos de automóviles, aunque no constituye en ningún caso una unidad aceptada por el Sistema Legal de Unidades de Medida (Ley 32/2014, de 22 de diciembre, de Metrología). Asimismo, se consigna, como otro elemento para diferenciar algunos modelos de automóviles, cuya denominación se mantiene a lo largo del tiempo, el periodo de su comercialización, dado que algunos vehículos, aun siendo diferentes, mantienen su misma denominación comercial durante un gran número de años. A su vez, los precios medios de los diversos tipos de motocicletas y *quads* con motores de combustión se diferencian en función del tamaño de su motor, expresado mediante los centímetros cúbicos del mismo, mientras que los precios medios de los diversos tipos de motocicletas eléctricas se diferencian en función de la potencia desarrollada por el motor expresada en Kw.

En lo que se refiere al Impuesto Especial sobre Determinados Medios de Transporte, para adecuar dicha valoración a los criterios de la Unión Europea, se mantiene la fórmula que elimina del valor de mercado, a efectos de dicho impuesto, la imposición indirecta ya soportada por el medio de transporte usado de que se trate, cuando hubiera estado previamente matriculado en el extranjero.

Por todo lo anterior procede actualizar para el año 2026 los precios medios de venta y los porcentajes aplicables a los mismos.

En su virtud, dispongo:

Artículo 1. *Tablas de precios medios aplicables.*

Las tablas que figuran en los anexos I, II, III, y IV de la Orden HAC/1484/2024, de 26 de diciembre, quedan sustituidas a todos los efectos por las que se recogen en los anexos I, II, III y IV de esta orden.

Artículo 2. *Ámbito de aplicación de los precios medios de venta.*

Los precios medios de venta, que se aprueban por esta disposición, serán utilizables como medios de comprobación a los efectos del Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados, Impuesto sobre Sucesiones y Donaciones e Impuesto Especial sobre Determinados Medios de Transporte.

Artículo 3. *Determinación del valor de los vehículos automóviles, autocaravanas,* quads *y motocicletas.*

Para la determinación del valor de los vehículos, autocaravanas, *quads* y motocicletas ya matriculados, se aplicarán sobre los precios medios, que figuran en el anexo I, los porcentajes que correspondan, según los años de utilización y, en su caso, actividad del vehículo, establecidos en la tabla e instrucciones que se recogen en el anexo IV.

Artículo 4. *Determinación del valor de las embarcaciones de recreo y motores marinos y de las motos náuticas.*

1. La fijación del valor de las embarcaciones de recreo y motores marinos se efectuará valorando separadamente el buque sin motor y la motorización, para lo cual se tomarán los valores consignados en el anexo II, aplicándoseles los porcentajes de la tabla incluida en el anexo III, según los años de utilización, y sumando posteriormente los valores actualizados para obtener el valor total de la embarcación.

2. En el supuesto de las motos náuticas, la fijación de valor se realizará de forma unitaria y conjunta, sin valoración independiente del casco y motorización, para lo cual se tomarán los valores consignados en el anexo II y se les aplicarán los porcentajes de la

cve: BOE-A-2025-26357
Verificable en https://www.boe.es

tabla incluida en el anexo III, según los años de utilización y las instrucciones recogidas en el citado anexo III.

Artículo 5. *Regla especial para la determinación del valor a los efectos del Impuesto Especial sobre Determinados Medios de Transporte.*

En lo que se refiere al Impuesto Especial sobre Determinados Medios de Transporte, se aplicarán las siguientes reglas:

Primera. A los precios medios que figuran en los anexos I, II y III se le aplicarán los porcentajes que corresponda, según los años de utilización y, en su caso, actividad del vehículo, establecidos en la tabla e instrucciones que se recogen en el anexo IV.

Segunda. Cuando se trate de medios de transporte que hubieran estado previamente matriculados en el extranjero y que sean objeto de primera matriculación definitiva en España teniendo la condición de usados, del valor de mercado calculado teniendo en cuenta lo señalado en la regla primera anterior, se minorará el importe residual de las cuotas de los impuestos indirectos. Para ello se podrá utilizar la siguiente fórmula:

$$BI = \frac{VM}{1 + (tipo_{IVA} + tipo_{iEDMT} + tipos_{OTROS})}$$

Donde:

BI: Base imponible de medios de transporte usados en el Impuesto Especial sobre Determinados Medios de Transporte.

VM: Valor de mercado determinado por tablas de precios medios tras la aplicación de los porcentajes del anexo IV.

$tipo_{IVA}$: Tipo impositivo, en tanto por uno, del Impuesto sobre el Valor Añadido que habría sido exigible en el momento de la primera matriculación y en el ámbito territorial en que ahora se vaya a matricular en España ese medio de transporte.

$tipo_{iEDMT}$: Tipo impositivo, en tanto por uno, del Impuesto Especial sobre Determinados Medios de Transporte que habría sido exigible en el momento de la primera matriculación y en el ámbito territorial en que ahora se vaya a matricular en España ese medio de transporte.

$tipos_{OTROS}$: Resultado de sumar los tipos impositivos, en tanto por uno, de cualesquiera otros impuestos indirectos que hayan gravado la adquisición del medio de transporte, y que estén incluidos en el valor de mercado.

Disposición final única. *Entrada en vigor.*

Esta orden entrará en vigor el día 1 de enero del año 2026.

Madrid, 17 de diciembre de 2025.–La Vicepresidenta Primera del Gobierno y Ministra de Hacienda, María Jesús Montero Cuadrado.
